Pay Quartiles by Gender:

As illustrated above, The Landmark Trust employ more woman than men throughout all levels of the organisation. 57% of our senior management team our women. We are proud of our recruitment processes and are confident no pay differentials exist between men and women of a similar grade. Our pay gap arises from the predominately female make up of our Housekeeper workforce (86%) where the hourly pay rate is at the lower end of our pay scale. Housekeepers constitute 311 of the 380 reportable employees included in our gender pay gap calculation. Whilst we understand that our gender balance in lower paid roles is indicative of a wider, national trend, we are starting to see a shift, and welcome and encourage the inclusion of more men into our housekeeping teams.

The data presented above has been prepared in accordance with The Equality Act 2010 (Gender pay gap information) Regulations 2017
