

DIVE LUNDY

Thank you for your enquiry about diving around Lundy. This information sheet should tell you all you need to know about diving on Lundy and planning your holiday.

Please note that the maximum speed limit for all vessels operating within 100m of the island is 5 knots.

WHY DIVE LUNDY?

The simple answer is because the marine environment around Lundy is spectacular and it provides divers with unique experiences that they will treasure. Lundy was established as a voluntary Marine Nature Reserve in 1971, this was followed with the first Marine Nature Reserve designation in 1986. Since then, the island's importance has been recognized through further designations as a Special Area of Conservation in 2000 and was nominated as the first Marine Conservation Zone (MCZ) in 2010. Along with these designations an area to the east of the island has been declared as a No Take Zone since 2003¹, this means that no fishing or collection of sea life of any kind can take place in this area. We ask that you respect this and report any activities to the Warden.

The high level of protection at Lundy has ensured that our marine life is amazing and, along with spectacular scenery, will allow you to experience some of the most varied diving in the U.K. Many divers return to Lundy again and again to dive in the unique waters littered with wrecks and diverse marine life including our playful resident seals and beautiful anemones and corals.

Lundy's waters are home to two protected wrecks; the *Iona II* and the Gull Rock Wreck. Both wrecks are protected by the Protection of Wrecks Act 1973 due to their significance and therefore cannot be dived without a licence. A new dive trail for the *Iona II* has been produced and received an award in September 2015. Further details on the trail and the history of the *Iona II* can be found through the Diving pages at www.lundyisland.co.uk

DIVING AROUND LUNDY

Lundy's location, on the edge of the Atlantic, means that we enjoy unpolluted water which can have excellent visibility, particularly in the calm summer months. However, the position of the island means it can be subjected to very strong tidal currents so it is essential that you understand the tidal streams at each site. It is advisable to use one of the experienced dive charter boats as their skippers have excellent knowledge of the dive sites making the whole experience safer and more enjoyable. Shore diving is limited to only a couple of safe entry points from the shore.

The Lundy Warden oversees the management of the Marine Conservation Zone, No Take Zone and Special Area of Conservation including the day-to-day running of the dive facilities and is happy to advise you on any aspect of diving on Lundy. Please feel free to contact the Warden before your visit on warden@lundyisland.co.uk or come and say hello during your visit.

We encourage safe diving practices therefore each group should nominate a diving officer who is responsible for organizing and supervising the group's diving activities. The diving officer is also responsible for raising awareness of the group as regards the legal protection of Lundy's marine protected area and should ensure that all divers abide by the Code of Conduct²

Shellfish: Please be aware that the regulations surrounding diver-caught shellfish have changed and all those wishing to take shellfish (scallops, crabs or lobster) must apply for a license from the Devon and Severn IFCA. Please see their website for details and for an application form www.devonandsevernifca.gov.uk.

However, many local charters operate a no take policy and their capture is not encouraged.

In December 2013, a new byelaw was passed stating that no crawfish (spiny lobster) can be taken by anyone from the Marine Conservation Zone at Lundy. To assess the state of the crawfish population at Lundy we are running a survey in which you can participate. Local charter skippers have copies of the survey sheets and further sheets are available from the Warden warden@lundyisland.co.uk.

“Take only photos, leave only bubbles”

Please be advised: Lundy is subject to fierce tidal races and sudden changes in weather which make it no place for inexperienced divers. The use of permanent surface marker buoys is strongly recommended. Persons diving off Lundy do so at their own risk and are responsible for their own safety. The Landmark Trust and the Lundy Company accepts no responsibility or liability for injuries or accidents which occur when diving in the waters around Lundy.

IONA II DIVE TRAIL

The Iona Dive Trail was opened in 2014. The *Iona II* is a paddle steamer which foundered off the east coast of Lundy after setting sail to assist in the American Civil War. There are four elements to the trail for you to immerse yourself in and assist in the monitoring of this protected wreck. Please be aware that as the *Iona II* is legally protected you are required to have a licence in order to dive her. All the details are available through the Diving pages on our website www.lundyisland.co.uk

DIVE FACILITIES ON LUNDY ISLAND

Please book facilities a minimum of one month prior to your visit to ensure that we are able to meet your needs and to receive your 10% discount on airfills. Please note that last minute

requests may not be possible therefore please always book in advance to avoid disappointment.

The Beach Building has been built with divers in mind and offers:

- Basic lockable storage/changing areas for two dive parties (approx. six persons per party) free of charge. Please note that these must be booked in advance and are subject to availability.
- Dunk tank for washing kit. Please note that during dry spells, the water may not be refreshed as frequently due to water restrictions and that the indoor tap is not for washing kit.
- Air-fills the triple filter compressor can supply air up to 230bar and tanks will be filled for you by island staff, book airfills in advance to receive a 10% discount. Please ensure that tanks are in test with a visible test stamp (those without a visible in-date test stamp cannot be filled).

Twin-sets are made up of two separate tanks and will be charged as such.

The group leader must settle the account the day before departure.

Prices for fills are:	Up to 3 litres	£3
	4 litres – 15 litres	£7
	16 litres +	£9

Beach Building

ACCOMMODATION

Many divers come to Lundy for a weekend but for many this is not nearly enough to experience everything that Lundy has to offer. Staying on the island maximizes the time you spend diving and minimizes travel time. The range of accommodation includes self-catering properties and camping facilities. The Barn is our largest self-catering property and has space for up to fourteen people in two dormitory style rooms. It is advisable to book well in advance as island accommodation and facilities are limited. The full range of accommodation can be booked through our website www.lundyisland.co.uk or via the Lundy Shore Office 01271 863 636. Please note that the Warden cannot process accommodation bookings.

THE LUNDY GENERAL STORES

The Lundy Store carries an extensive range of fresh, frozen and canned food, along with toiletries, household goods and souvenirs. A range of wines, beers and spirits are available from the store and Marisco Tavern. There is a good supply of fresh produce which is replenished on sailing days. If you choose to bring your own groceries with you please ensure that they are in a sealed plastic container as open bags represent a hazard and must remain onboard your vessel.

Many divers find that on the first day they arrive outside of store opening hours due to their diving schedule. You can, however, make an advanced order which will be delivered to your property on the day, Advance Order forms must be received **at least two weeks** before your visit. For further information please look at the store's pages on our website shop@lundyisland.co.uk or contact the store on 01237 431 831.

The store also stocks t-shirts/hoodies/hats etc. and souvenirs. Opening hours are displayed in the store window and on the Tavern notice board. If you enjoy eating outdoors there is a large gas BBQ available for hire (disposable BBQs are available to buy) and the store has an excellent range of BBQ foods.

If you prefer someone else cooking for you the Marisco Tavern provides a variety of delicious meals.

MARISCO TAVERN

The Marisco Tavern is the focal point of island life for everyone on the island. Breakfast, lunch and dinner are served every day; please refer to the board in the Tavern for serving times and menus.

Packed lunches are available on request; please place your order with the Tavern staff the day before to ensure the kitchen has enough notice.

A variety of alcoholic and non-alcoholic beverages are available along with tea, coffee and soft drinks.

GETTING TO LUNDY

You can get to the island either on one of the charter boats, on your own boat ¹ or on our passenger and supply ship the MS Oldenburg.

Fares and sailing times for the Oldenburg can be found on our website. The ticket price is inclusive of the Lundy landing fee (£6 or free to National Trust members) and luggage transport fee (£10 minimum).

There is a luggage allowance of 20kg per person on the Oldenburg and anyone carrying luggage in excess of this will be charged accordingly. A charge of £20 is payable for carriage of personal diving equipment such as tanks, weights etc. and is not considered as excess luggage.

If you would like to use your own RIB or inflatable whilst you are here, this can be transported on the Oldenburg at the cost of £110 per boat and must be booked via the Shore Office on (01271) 863 636. Please note that we are not responsible for any damage or loss caused to boats or equipment during shipment or whilst on Lundy so please ensure your belongings are appropriately insured.

If you come to Lundy using one of the charter boat services please note that there is a luggage transfer service available at a cost of £3 per person (minimum £10), all luggage must weigh no more than 20kg (excess will be charged for) and all food must arrive in sealed plastic containers.

If you do decide to dive from your own vessel please be aware that conditions around Lundy can change very quickly and make sure that you carry all the appropriate safety equipment including a VHF radio or other means of communication.

Petrol is not available on Lundy. If you are bringing your own boat you must organize to bring sufficient fuel for your stay. If you are using the Oldenburg to transport your boat you need to advise us of any hazardous materials on board your boat, such as petrol etc. Diesel may be ordered in advance on the Dive Facilities Booking Form.

Please remember Lundy is a Marine Protected Area and you must exercise extreme caution when storing fuel and re-fuelling your boat.

There is one visitor mooring in the Landing Bay therefore please consult a member of Island staff on arrival to establish if it is available. Please note that mooring is undertaken at your own risk. The Landing Bay provides a sheltered anchorage when the winds are from the western quarter, but is vulnerable to winds from the East or North East. During adverse conditions inflatables can be hauled out of the water but this is not practical for RIBs there please consult a reliable forecast prior to your arrival.

Since 2006, Lundy has been rat-free for the benefit of the seabird populations. To ensure that we maintain our rat-free status, it is important that visitors to the island take extra precautions to reduce the risk of reintroduction. If you are bringing your own boat, please check it for rodents immediately prior to your visit and keep any food sealed or in sealed containers.

¹Sometimes bad weather prevents small boats like the charter boats or RIBs from getting to the island, so please make sure you arrange your own travel insurance as we do not provide insurance to refund the cost of your accommodation should you have to cancel your trip.

BOOKING CHECKLIST

- Book your accommodation on the island by either contacting the Lundy Shore Office (01271) 863 636 or by visiting our website, www.lundyisland.co.uk
- Book a charter boat. There are a number of independent⁴ charter boats that operate around Lundy

Appledore charters: Lundy Castaway (max. 10 divers) – John Fanthorpe on 01598 740 198 or 07970 474273 or alternatively visit John’s website www.boattripstolundy.co.uk/

Ilfracombe charters: Obsession II and Silver Spirit, (max. 12 divers each) Andrew Benguey on 01271 866 032 or 07971 462024 or alternatively visit Andrew’s website www.lundydiving.co.uk/

Jay Jay, (max. 10 divers) – contact 01271 863 398 or 07827 679189 or alternatively visit their website www.bristolchannelcharters.co.uk/

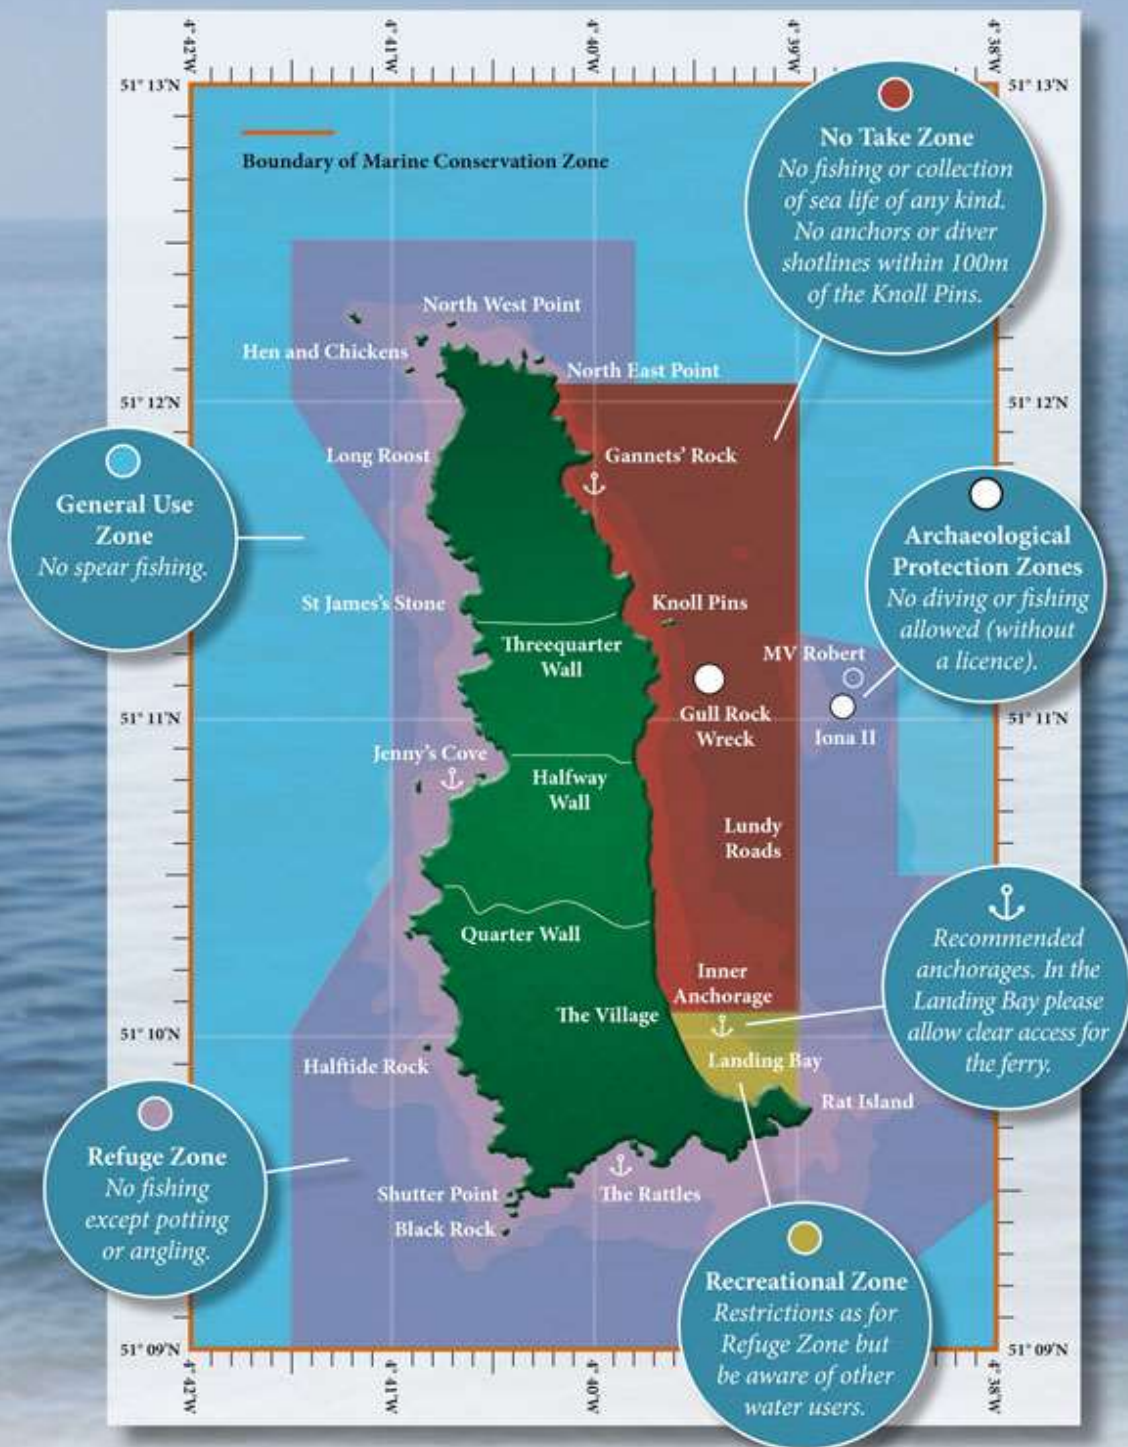

Complete a Dive Booking Form and email it directly to general@lundyisland.co.uk with a completed Advance Order form for the store if required.

² Please note that as these are independent operators; neither The Lundy Company nor The Landmark Trust can accept responsibility on their behalf.

The Lundy Marine Conservation Zone

Zoning Scheme

The Lundy Marine Conservation Zone is used by a wide variety of people. The zoning scheme has been developed, much of which is backed up by law, to enable everyone to enjoy the reserve whilst protecting this special place.

DIVERS!

LUNDY'S MARINE LIFE NEEDS YOUR HELP!

Photo: Mike Deaton

The waters around Lundy form a Special Area of Conservation (SAC) due to the importance of a number of its marine habitats and species. The SAC is covered within Lundy's Marine Protected Area (MPA) which also consists of Lundy's Marine Conservation Zone (MCZ). In order to continue conserving our astonishing and complex underwater communities **WE NEED YOUR HELP!** As you are the eyes and ears of the MPA, we want you to become part of our conservation effort to monitor and catalogue our marine life through your sightings and diving experiences.

Why not get involved by contributing your knowledge, experiences and photos of Lundy's marine life and habitats, as well as any other interesting things that you may come across! We are interested in everything from **non-native seaweeds and gelatinous jellyfish to colorful corals, crawfish, red band fish and silly seals!**

Your sightings could prove vital to helping conserve the dive sites you know and adore and to preserve them for future underwater explorers and dive enthusiasts.

To help us, send in your information including **date, location** and **number of individuals** to warden@lundyisland.co.uk or submit your sightings via the **Lundy Marine Sightings Facebook page**. If social media isn't your thing then you can send us your photos and videos via a link to the above address or by CD, memory stick or memory card to: Warden, Lundy Island, Bideford, Devon, EX39 2LY. Please remember to attach a return address so we can send these devices back to you!

If you have any queries, please feel free to get in touch! And **THANK YOU!!!**

Photo: James W

MARINE CODE OF CONDUCT

The marine protected area zoning scheme and No Take Zone apply to everyone, these are strictly enforced and much of the code of conduct is underpinned by law. This code is for everyone who visits Lundy to ensure that the marine life is protected for future generations. Please look after it!

General – Applies to all visitors

- Do not disturb or remove any plant or animal within the Marine Protected Area (Marine Conservation Zone, Special Area of Conservation and Special Site of Scientific Interest).
- **NO** marine life is to be removed from the No Take Zone
- Lundy is now a rat free island. To keep it that way please take **ALL** rubbish home with you – especially perishables and check your boats and bags for rats before arriving.
- Report all interesting or unusual sightings of marine wildlife or any archaeological finds to the Warden.
- Keep away from seals and their pups from 1st September to 30th November during the peak breeding season.

Rockpooling

- Please try to leave everything as you find it, always return rocks and seaweed as they were, these provide shelter, food and homes for wildlife.
- Do not collect animals or plants in buckets or use nets
- Surveys and scientific monitoring may require a consent (consult with warden)

Diving and snorkelling

- Control buoyancy to avoid contact with marine life be aware of the environment around you especially when taking photographs
- Try not to leave air bubbles in caves or overhangs
- Do not remove any items off any wrecks or any associated material on the seabed
- Gull Rock Wreck & Iona II are designated wreck sites, diving these without a license is illegal

- We do **NOT** encourage the taking of shellfish outside of the No Take Zone (NTZ). Should you wish to collect any shellfish, please be aware that new take limits that will be in place from March 2015, please speak to the warden to discuss our recommended take limits and for further information. Many charter boats operate a no take policy; the skippers decision is final.
- **Do not** remove crawfish (spiny lobsters) from the reserve
- Spear fishing is **not** permitted anywhere within the Marine Protected Area
- Follow the Seal code of conduct (below)

Boating (all kinds - kayaks to charter boats)

- Keep to a distance of 100 m from nesting seabirds sites from 1st March to 1st August. Reduce speed to less than 5 knots when 100m from seabird cliffs and rafting birds.
- Reduce speed to less than 5kts when 100m from basking sharks, seals, cetaceans (whales, dolphins and porpoises). Do not change your course to directly approach them, let them come to you.
- Use an WiSe accredited operator when chartering www.wisescheme.org
- Use the visitor moorings buoys as shown on the zoning scheme in Gannets, Brazen Ward and the Landing Bay.
- Avoid anchoring; if it is necessary then anchor in less sensitive habitats such as sandy sea beds in the Landing Bay.
- Do not anchor or use shot lines within 100m of Knoll Pins
- Do not deploy any mooring. A license is required for permanent moorings and permission for a temporary mooring from the warden
- The speed limit in the Landing bay is 5 knots
- Do not place any pots in the Landing Bay, they will be removed.

Sea angling

- No fishing within the No Take Zone
- Catch and release all fish if not going to be used
- Release all wrasse species, tope, red band fish, bull huss and conger eels where they are caught.
- Use barbless hooks
- Avoid use of a gaff
- Fish above the reef when fishing in reef areas, do not fish on the bottom to avoid entanglement
- Only retain sufficient fish for personal consumption and return all unwanted catch to the sea unharmed.
- Do not collect any bait from the intertidal area. You can obtain sustainable bait in the islands General store.
- Fishing of any type is not permitted within the area of a designated wreck site
- Follow the National Federation of Sea Anglers (NFSA) 'Conservation Code for Sea Anglers' and abide by the 'Recommended Retention Size Limits'
- Record and report all interesting catches to the Warden

For enquiries of further information contact the Warden on (01237) 431 831 or email warden@lundyisland.co.uk

LUNDY SEALS

RESPECT, PROTECT, ENJOY.

Lundy has a breeding colony of approximately 200 Atlantic grey seals. These beautiful animals enjoy interacting with divers, snorkelers and swimmers, and will often initiate play. Seals are naturally inquisitive, however, they are also cautious. By adopting a safe and respectful approach you will be able to enjoy longer and more exciting encounters.

If you have any questions please contact the Lundy Warden at warden@lundyisland.co.uk

Impact of disturbance on all seals

Seals haul out to moult, breed, rest and digest their food. All of this requires energy! Hauled out seals have already made a heavy investment, energy-wise, to get out of the sea. Flushing them back into the water increases the overall energy expenditure of these animals. Repeated disturbance is cumulative and can have compromising effects on a seal's energy budget over a short or long period of time. Additionally, during the pupping season heavily pregnant females carry their pups beneath them as they move over the rocks, so any disturbance that makes them rush carelessly to the sea can have fatal consequences for their pups and subsequently for themselves.

To ensure your encounter is enjoyable for both you and the seal, please adhere to the following points.

- If you observe any behaviors which might indicate stress, such as increased vocalisation, teeth bearing or rapid entry into the water please move away and allow the seal to recover.
- Keep boat speed below 5 knots within 100m of the shoreline.
- Whilst snorkeling or diving, please refrain from touching or feeding the seals.
- Do not take toys into the water to play with the seals
- Do not directly approach the seals on land or in the water or attempt to chase them, given time they will come to you.
- Take plenty of pictures and feel free to send these onto the warden, but avoid using flash photography as this may scare the seals.

Lundy's seals are protected through the island's Special Area of Conservation designation, the Conservation of Seals Act (1970) and the Wildlife and Countryside Act (1981). It is illegal to recklessly disturb or injure grey seals within the UK. Please have fun and enjoy your experience whilst remaining respectful.

Keep your speed below 5 knots within 100m of the shoreline

revised 07/01/2018
